Extent of Warranty Service

An MDH Warranty is not a guarantee of uninterrupted or error-free functioning of a unit.

Service does not include repair of failures caused by: misuse, neglect, accident, modification, operation outside the Specified Operating Environment, improper maintenance by the Customer, failure caused by service of the unit by non-authorized personnel, or failure caused by a product, including supply products, for which MDH is not responsible.

When the exchange service is used, the returned unit becomes the property of MDH.

Exchange units may be new, repaired, or may be another new or repaired unit of equal or greater capabilities. The exchange unit becomes the property of the customer when the unit to be returned has been received by MDH, and the exchange unit assumes the remainder of the Warranty Service of the returned unit. The returned unit must not be encumbered.

Repair parts will be furnished on an exchange basis and will either be new, equivalent to new or reconditioned. All returned parts and products become the property of MDH.
